I am here

Deep within your heart that yearns,
I am here...
I'm the flame that softly burns
And lights your way;
I am the darkness of the night
I will be your shining light...
I am here...
I am the misty morning dew,
I am here....
Standing closely beside you.
I'll hold your hand...
Let you feel a quiet peace,
I will be your sweet release
I am here...
I am here...
In a haunting melody...
I am here....
I will be that memory
That gives you strength.
When days are long
We'll carry on....
I am here...
I am here...
As long as you do not forget,
I am here....
In your heart, I know, and yet...
It's here I'll stay,
I'll never go,
We both will know...
That I am here...
